FOR IMMEDIATE RELEASE

## TGC Industries Reports Third Quarter 2014 Results

PLANO, TEXAS — OCTOBER 27, 2014 — TGC Industries, Inc. (NASDAQ: TGE) (“TGC”) today announced financial results for its third quarter ended September 30, 2014. Revenues in the third quarter of 2014 were \$26.1 million compared to \$21.1 million in the third quarter of 2013. TGC reported a net loss of \$4.0 million, or (\$0.18) per share, for both the third quarter of 2014 and the third quarter of 2013.

Wayne Whitener, TGC Industries’ President and Chief Executive Officer, said, “Our third quarter results were negatively impacted by a land seismic environment in both the United States and Canada that has remained challenging since the beginning of last year. In addition, Canadian operations did not contribute significantly to our third quarter results due to the regular seasonal nature of seismic work in Canada.

“Our current backlog is approximately \$32 million, and we anticipate execution of a substantial amount of contracts awaiting signature that we expect to be finalized in the next few weeks. We ended the third quarter of 2014 with over \$25 million in cash, and we continue to maintain the financial flexibility and low cost structure needed to navigate these challenging market conditions.

“We recently announced a strategic business combination with Dawson Geophysical and are extremely pleased to join forces with them. We believe that the combination of our shared technical, operational and international expertise will provide increased opportunities to better serve our client base and result in a stronger company. This strategic business combination should allow the new company to enjoy increased utilization rates and lower costs. We continue to anticipate a first quarter 2015 closing for this transaction.”

## THIRD QUARTER 2014 RESULTS

Third quarter 2014 revenues were \$26.1 million compared to \$21.1 million in the third quarter of 2013. TGC operated five seismic crews in the U.S. for the 2014 third quarter. In the third quarter of 2013, TGC began the quarter with three crews operating in the U.S. and ended the quarter with five U.S. crews. In Canada, TGC had one crew operating intermittently during the 2014 third quarter compared to a year ago, when TGC operated three Canadian crews for short term summer work at the beginning of the quarter but ended the period with no crews in Canada. Since the end of the 2014 third quarter, TGC has placed additional Canadian crews into the field and has two crews currently operating in Canada and expects to add two additional Canadian crews before the end of November.

Gross profit margin in the 2014 third quarter was 3.9% compared to 12.4% for the third quarter of 2013. As a percentage of revenues, cost of services was 96.1% compared to 87.6% in the third quarter a year ago.
