UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Quarterly Period Ended September 30, 2026

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Transition Period From to

Commission File No. 001-32472

DAWSON GEOPHYSICAL COMPANY

(Exact name of registrant as specified in its charter)

Texas	**74-2095844**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

508 West Wall, Suite 800, Midland, Texas 79701

(Address of Principal Executive Office) (Zip Code)

Registrant's Telephone Number, Including Area Code: **432-684-3000**

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	**Name of Exchange on Which Registered**	**Trading Symbol**
Common Stock, $0.01 par value	**The NASDAQ Stock Market**	DWSN

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Accelerated filer ☐	Large accelerated filer ☐	Smaller reporting company ☒
Non-accelerated filer ☒	Emerging growth company ☐	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Title of Each Class	**Outstanding at November 11, 2026**
Common Stock, $0.01 par value	31,118,660 shares

DAWSON GEOPHYSICAL COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND NATURE OF OPERATIONS

Dawson Geophysical Company and its consolidated subsidiaries (the "Company") is a leading provider of North American onshore seismic data acquisition services with operations throughout the continental United States ("U.S.") and Canada. The Company acquires and processes 2-D, 3-D and multicomponent seismic data solely for its clients, ranging from major oil and gas companies to independent oil and gas operators as well as providers of multi-client data libraries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In the opinion of the Company's management, the condensed consolidated financial statements reflect all adjustments, which are normal and recurring in nature, necessary for fair financial statement presentation. The preparation of these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in these condensed consolidated financial statements and accompanying notes. Actual results could differ materially from those estimates. Certain prior period amounts in the condensed consolidated financial statements may have been reclassified to conform to the current period's presentation.

These condensed consolidated financial statements have been prepared using accounting principles generally accepted in the U.S. for interim financial information and the instructions to Form 10-Q and applicable rules of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in annual financial statements presented in accordance with accounting principles generally accepted in the U.S. have been omitted.

These condensed consolidated financial statements and accompanying notes should be read in conjunction with the Company's annual consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025. The December 31, 2025, balance sheet information was derived from our audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Significant Accounting Policies

Principles of Consolidation. The condensed consolidated financial statements as of September 30, 2026, and for the three and nine months ended September 30, 2026, and 2025, include the accounts of the Company and its wholly owned subsidiaries, Dawson Operating LLC, Dawson Seismic Services Holdings, Inc., Eagle Canada, Inc., Eagle Canada Seismic Services ULC, and Exploration Surveys, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

Dividends. The Company records dividends declared as an addition to accumulated deficit when declaration of such dividends is not subject to restrictions in the jurisdictions in which the Company operates, or in conflict with information in the Company's bylaws.

Allowance for Current Expected Credit Losses. The Company's allowance for credit losses reflects its current estimate expected to be incurred over the life of the financial instrument and is determined based on a number of factors. Management determines the need for any allowance for credit losses on accounts receivable based on its review of past-due accounts, its past experience of historical write-offs, its current client base, when customer accounts exceed 90 days past due and specific customer account reviews. While the collectability of outstanding client invoices is continually assessed, the inherent volatility of the energy industry's business cycle can cause swift and unpredictable changes in the financial stability of the Company's clients. With the adoption of ASU No. 2016-13 in 2020, the Company made an accounting policy election to write off accrued interest amounts by reversing interest income. For the three and nine months ended September 30, 2026, the Company incurred no credit losses. For the three and nine months ended September 30, 2025, the Company incurred credit losses of $0 and $177,000, respectively. The Company's allowance for credit losses was $250,000 at September 30, 2026 and December 31, 2025.

Leases. The Company leases certain vehicles, seismic recording equipment, real property and office equipment under lease agreements. The Company evaluates each lease to determine its appropriate classification as a finance lease or an operating lease for financial reporting purposes. The assets and liabilities under finance leases are recorded at the lower of the present value of the minimum lease payments or the fair market value of the related assets. Assets under finance leases are amortized using the straight-line method over the initial lease term. Amortization of assets under finance leases is included in depreciation expense. For operating leases, where readily determinable, the Company uses the implicit interest rate in determining the present value of future minimum lease payments. In the absence of an implicit rate, the Company uses its incremental borrowing rate. The right-of-use assets are amortized to operating lease cost over the lease terms in a manner that results in straight-line operating lease cost and is included in operating expense. Several of the Company's leases include options to renew and the exercise of lease renewal options is primarily at the Company's discretion.

Property and Equipment. Property and equipment is capitalized at historical cost or the fair value of assets acquired in a business combination and is depreciated over the useful life of the asset. Management's estimation of this useful life is based on circumstances that exist in the seismic industry and information available at the time of the purchase of the asset. As circumstances change and new information becomes available, these estimates could change. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the balance sheet, and any resulting gain or loss is reflected in the results of operations for the period.

Impairment of Long-lived Assets. Long-lived assets are tested for impairment at the asset group level when events or changes in circumstances indicate the carrying value of the asset group may not be recoverable. Recognition of an impairment charge is required if future expected undiscounted net cash flows are insufficient to recover the carrying value of the asset group and the fair value of the asset group is below its carrying value. Depending upon the facts and circumstances, when indicators of asset impairment exist, management will test the asset group for impairment through developing a forecast of future undiscounted cash flows expected to be generated by the asset group or by estimating the fair value of assets within the asset group in lieu of detailed cash flow projections. If either the future undiscounted cash flows expected to be generated by the asset group or the fair value of the assets within the asset group exceeds the carrying value of the asset group no impairment would be recognized. No impairment test was required during the quarter ended September 30, 2026, or the year ended December 31, 2025 and no impairment charges were recognized during those periods.

Use of Estimates in the Preparation of Financial Statements. Preparation of the accompanying financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Because of the use of assumptions and estimates inherent in the reporting process, actual results could differ from those estimates.

Revenue Recognition. Services are provided under cancelable service contracts which usually have an original expected duration of one year or less. These contracts are either "turnkey" or "term" agreements. Under both types of agreements, the Company recognizes revenues as the services are performed. Revenue is generally recognized based on receivers laid out and picked up compared to total receivers anticipated to be recorded on the survey using the total estimated revenue for the service contract. In the case of a cancelled service contract, the client is billed and revenue is recognized for any third-party charges and square miles of data recorded up to the date of cancellation.

The Company receives reimbursements for certain out-of-pocket expenses under the terms of the service contracts. The amounts billed to clients are included at their gross amount in the total estimated revenue for the service contract.

Clients are billed as permitted by the service contract. Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings and cash collections. If billing occurs prior to the revenue recognition or billing exceeds the revenue recognized, the amount is considered deferred revenue and a contract liability. Conversely, if revenue recognized exceeds billings, the excess represents an unbilled receivable, which is classified as a contract asset and included in prepaid expenses and other current assets on the condensed consolidated balance sheets. See Note 11, "Deferred Costs and Unbilled Receivables," for additional information.

In some instances, third-party permitting, surveying, drilling, helicopter, equipment rental and mobilization costs that directly relate to the contract are utilized to fulfill the contract obligations. These fulfillment costs are included in prepaid expenses and other current assets and generally amortized based on the total square miles of data recorded compared to total square miles anticipated to be recorded on the survey using the total estimated fulfillment costs for the service contract.

Estimates for total revenue and total fulfillment cost on any service contract are based on certain qualitative and quantitative judgments. Management considers a variety of factors such as whether various components of the performance obligation will be performed internally or externally, cost of third-party services, and facts and circumstances unique to the performance obligation in making these estimates.

Additionally, the Company's policy includes (i) ignoring the financing component when estimating the transaction price for service contracts completed within one year, (ii) excluding sales tax collected from the customer when determining the transaction price, and (iii) expensing incremental costs to obtain a customer contract if the amortization period for those costs would otherwise be one year or less. See Note 5 for additional disclosures related to disaggregated revenue.

Share-based compensation. The Company measures and records compensation expense for share-based payment awards to employees and outside directors based on estimated grant date fair values. Grant date fair value is determined by averaging the high and low stock price on the grant date. The Company recognizes compensation costs for awards granted over the requisite service period based on the grant date fair value in fee operating expenses and general and administrative expenses on our consolidated statements of operations. During the three and nine months ended September 30, 2026, the Company granted 0 and 4,000 shares, respectively, to employees with an aggregate grant date fair value of $23,000. During the three and nine months ended September 30, 2025, the Company granted 0 and 5,050 shares, respectively, to employees with an aggregate grant date fair value of $8,000. For the three months ended September 30, 2026, the Company

recognized expense related to restricted stock unit awards of $19,000 and $28,000 in fee operating expenses and general and administrative expenses, respectively. For the nine months ended September 30, 2026, the Company recognized expense related to restricted stock unit awards of $56,000 and $84,000 in fee operating expenses and general and administrative expenses, respectively. Additionally, the Company recognizes forfeitures of share-based compensation as they occur.

Risks and Uncertainties. The Company's ability to be profitable in the future will depend on many factors beyond its control, but primarily on the level of demand for land-based seismic data acquisition services by oil and natural gas exploration and development companies. The Company incurred net losses of $5.2 million and $1.2 million for the three months ended September 30, 2026, and 2025, respectively. The Company incurred net losses of $0.9 million and $2.5 million for the nine months ended September 30, 2026 and 2025, respectively. As of September 30, 2026, the Company had $2.8 million in cash and a working capital deficit of $6.2 million. The Company believes that its cash flows from operations and our current financial position are adequate to fund our continued operations, and we expect our operating cash flows to improve with the resumption of our seasonal Canadian operations and contracted jobs in the United States in the fourth quarter.

Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement–Reporting Comprehensive Income–Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. ASU 2024-03 enhances the disclosures required for certain expense captions in the Company's annual and interim consolidated financial statements. This ASU is effective prospectively or retrospectively for fiscal years beginning after December 15, 2026, and for interim reporting periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact of this standard on its disclosures.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*. This ASU introduces a practical expedient to simplify the application of Topic 326, Financial Instruments - Credit Losses, to current accounts receivable and current contract assets arising from revenue transactions accounted for under Topic 606, Revenue from Contracts with Customers. The Company adopted ASU 2025-05 effective January 1, 2026, and elected to apply the practical expedient. The adoption did not have a material impact on the Company's financial statements or related disclosures.

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270): Narrow-Scope Improvements*. This ASU intends to improve the guidance for interim reporting and clarify when that guidance is applicable. ASU 2025-11 provides a comprehensive list of required disclosures and also requires entities to disclose events since the last annual reporting period that have a material impact on the entity. ASU 2025-11 is effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact of ASU 2025-11 on its financial statements and related disclosures.

3. EQUIPMENT PURCHASE AGREEMENT

In August 2025, Dawson Operating LLC ("Dawson Operating"), a wholly-owned subsidiary of Dawson Geophysical Company, entered into an equipment purchase agreement with GTC, Inc. ("GTC"), a wholly-owned subsidiary of Geospace Technologies Corporation ("Geospace"), pursuant to which, among other things, Dawson Operating agreed to acquire new single point node channels from GTC for an aggregate purchase price of approximately $24.2 million (the "Equipment Purchase Agreement") subject to the terms and conditions thereof. The Company paid cash of approximately $4.8 million upon execution of the Equipment Purchase Agreement, agreed to pay approximately $1.2 million in cash upon final delivery, and agreed to finance approximately $18.2 million through separate promissory notes to be issued in connection with each delivery of equipment (each, a "Geospace Note" and collectively, the "Geospace Notes"). Each Geospace Note is payable by Dawson Geophysical Company and Dawson Operating, jointly and severally, to GTC. The Geospace Notes each have a term of 36 months, bear a fixed interest rate of 8.75% annually and may be prepaid in whole or in part at any time without penalty.

During the nine months ended September 30, 2026, the Company paid the remaining cash payment of $0.9 million and issued the final Geospace Note for $2.7 million. As of September 30, 2026, the Company has taken delivery of all the contracted equipment and issued six Geospace Notes with an aggregate principal of approximately $18.2 million, with $13.2 million outstanding at September 30, 2026.

4. FAIR VALUE OF FINANCIAL INSTRUMENTS

At September 30, 2026 and December 31, 2025, the Company's financial instruments included cash and cash equivalents, short-term investments, accounts receivable, other current assets, accounts payable, other current liabilities, notes payable, finance leases and operating lease liabilities. Due to the short-term maturities of cash and cash equivalents, short-term investments, accounts receivable, other current assets, accounts payable and other current liabilities, the carrying amounts approximate fair value at the respective balance sheet dates. The

carrying value of the notes payable approximates their fair value based on comparisons with the prevailing market interest rate. The fair values of the Company's notes payable are level 2 measurements in the fair value hierarchy.

5. OPERATING SEGMENTS

The Company's chief operating decision maker (President and Chief Executive Officer) reviews the discrete segment financial information on a geographic basis for the United States ("USA") operations and Canada ("CA") operations. As a result, our business has two reportable segments, USA Operations and Canada Operations. The revenue for both of the Company's segments is generated by the same services, which utilize the same type of equipment and personnel. The performance of our segments is evaluated primarily on Adjusted EBITDA. The CODM reviews the adjusted EBITDA of the Company's reportable segments, which drives the evaluation of the performance of the Company's reportable segments and allocation of resources to those segments. The Company defines Adjusted EBITDA as our net income (loss), before (i) interest expense, net, (ii) income tax expense or benefit, (iii) depreciation and amortization and (iv) non-recurring and other charges, such as strategic transaction expenses, that we believe are not indicative of our core operating performance. The significant expense categories reviewed by the CODM are those presented on the face of the consolidated statement of operations.

A portion of the management charges incurred by the U.S. segment were allocated to the Canadian segment based upon an activity level determined to be appropriate by management. These charges totaled approximately $24,000 and $23,000 for the three months ended September 30, 2026 and 2025, respectively and approximately $232,000 and $237,000 for the nine months ended September 30, 2026 and 2025, respectively.

The following tables present the Company's income statements by operating segment (in thousands):

	Three Months Ended September 30, 2026			Nine Months Ended September 30, 2026		
	USA Operations	Canada Operations	Consolidated	USA Operations	Canada Operations	Consolidated

6. DEBT

Equify Revolving Credit Note (related party)

On October 31, 2025, Dawson Geophysical Company (the "Company") and Dawson Operating LLC, a Texas limited liability company and a wholly owned subsidiary of the Company ("Dawson Operating" and together with the Company, the "Borrowers"), entered into a Revolving Credit Note (the "Revolving Credit Note") in favor of Equify Financial, as lender (the "Lender"). Dan Wilks and Farris Wilks, together with certain of their affiliates, collectively hold a controlling interest in the Company and in the Lender.

Pursuant to the Revolving Credit Note, the Borrowers, jointly and severally, may, from time to time until November 20, 2028, request loans from the Lender for up to an aggregate principal amount of $5,035,032. The loans outstanding under the Revolving Credit Note are payable by the Borrowers in thirty-six (36) monthly installments of principal in the amount of $139,862, together with all accrued and unpaid interest on the outstanding principal balance thereunder, commencing on December 20, 2025, and continuing thereafter until the maturity date. The interest rate applicable to loans outstanding under the Revolving Credit Note is a rate per annum equal to 13%.

The maximum borrowing limit under the Revolving Credit Note is initially $5,035,032, and such amount is reduced by $139,862 on each monthly payment date. During the nine months ended September 30, 2026, the Company borrowed approximately $9.9 million and repaid approximately $6.3 million under the Revolving Credit Note. As of September 30, 2026, the Company had approximately $3.6 million outstanding under the Revolving Credit Note, and the credit facility was fully drawn. See Note 11 for additional information regarding related-party interest expense associated with the Revolving Credit Note. The Borrowers may prepay up to 75% of the outstanding principal and accrued but unpaid interest at any time without a prepayment fee.

The obligations under the Revolving Credit Note are secured by a lien on the Company's vibrator energy source vehicles, pursuant to a Security Agreement by and between the Company and Equify, dated as of October 31, 2025.

Letters of Credit

As of September 30, 2026, the Company has one letter of credit in the amount of $370,000 to support our insurance policies. The letter of credit is secured by a certificate of deposit with First Financial Bank.

Other Indebtedness

As of September 30, 2026, the Company has six Geospace Notes payable related to equipment purchases discussed in Note 3, totaling $13.2 million.

In addition, the Company leases certain seismic recording equipment and vehicles under leases classified as finance leases. The Company's Consolidated Balance Sheets as of September 30, 2026, and December 31, 2025, include finance lease liabilities of $2.3 million and $2.6 million, respectively.

Maturities and Interest Rates of Debt

The following tables set forth the aggregate principal amount (in thousands) under the Company's outstanding notes payable and the interest rates as of September 30, 2026, and December 31, 2025:

	September 30, 2026	December 31, 2025
Geospace Notes payable		
Aggregate principal amount outstanding	$ 13,244	$ 14,731
Interest rate of 8.75%		

	September 30, 2026	December 31, 2025
Notes payable to finance company for insurance		
Aggregate principal amount outstanding	$ —	$ 258
Interest rates range from 6.60% to 7.49%		

The aggregate maturities of notes payable and revolving credit note as of September 30, 2026, are as follows (in thousands):

October 2026 - September 2027	$ 7,656
October 2027 - September 2028	8,086
October 2028 - September 2029	1,103
Obligations under notes payable and revolving credit note	$ 16,845

The aggregate maturities of finance leases (net of imputed interest) as of September 30, 2026, are as follows (in thousands):

October 2026 - September 2027	$ 1,263
October 2027 - September 2028	707
October 2028 - September 2029	318
October 2029 - September 2030	57
Obligations under finance leases	$ 2,345

Interest rates on these leases range from 4.86% to 13.33%.

7. LEASES

The Company leases certain vehicles, seismic recording equipment, real property and office equipment under lease agreements. The Company evaluates each lease to determine its appropriate classification as an operating lease or finance lease for financial reporting purposes. The majority of our operating leases are non-cancelable operating leases for office and shop space in Midland and Plano, Texas, and Calgary, Alberta. There have been no material changes to our other leases since the Company's most recent Annual Report on Form 10-K that was filed with the SEC on March 31, 2026.

Maturities of lease liabilities as of September 30, 2026, are as follows (in thousands):

	Operating Leases	Finance Leases
October 2026 - September 2027	$ 984	$ 1,395
October 2027 - September 2028	697	756
October 2028 - September 2029	670	334
October 2029 - September 2030	264	59
Thereafter	—	—
Total payments under lease agreements	2,615	2,544
Less imputed interest	(230)	(199)
Total lease liabilities	$ 2,385	$ 2,345

8. COMMITMENTS AND CONTINGENCIES

From time to time, the Company is a party to various legal proceedings arising in the ordinary course of business. Although the Company cannot predict the outcomes of any such legal proceedings, management believes that the resolution of pending legal actions will not have a material adverse effect on the Company's financial condition, results of operations or liquidity, as the Company believes it is adequately indemnified and insured.

Additionally, the Company experiences contractual disputes with its clients from time to time regarding the payment of invoices or other matters. While the Company seeks to minimize these disputes and maintain good relations with its clients, the Company has experienced in the past, and may experience in the future, disputes that could affect its revenues and results of operations in any period.

9. NET LOSS PER SHARE

Basic loss per share is computed by dividing the net loss by the weighted average shares outstanding. Diluted loss per share is computed by dividing the net loss by the weighted average diluted shares outstanding.

The computation of basic and diluted loss per share (in thousands, except share and per share data) was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	2026	2025
Net loss	$ (5,167)	$ (1,153)	$ (946)	$ (2,510)
Weighted average common shares outstanding				
Basic	31,055,618	31,047,801	31,053,787	31,006,304
Diluted	31,055,618	31,047,801	31,053,787	31,006,304
Basic net loss per share of common stock	$ (0.17)	$ (0.04)	$ (0.03)	$ (0.08)
Diluted net loss per share of common stock	$ (0.17)	$ (0.04)	$ (0.03)	$ (0.08)

The Company incurred net losses for the three and nine months ended September 30, 2026 and 2025. As a result, all stock options, restricted stock unit awards and restricted stock awards were anti-dilutive and excluded from the weighted average shares used in determining diluted loss per share of common stock for those periods.

The following weighted average numbers of stock options, restricted stock unit awards and restricted stock awards have been excluded from the calculation of diluted loss per share of common stock, as their effect would have been anti-dilutive for the three and nine months ended September 30, 2026 and 2025.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	2026	2025
Restricted stock units	250,000	—	250,000	57,924
Total	250,000	—	250,000	57,924

10. INCOME TAXES

For the three and nine months ended September 30, 2026, the Company's effective tax rates were 0.0% and -2.6%, respectively, and for the three and nine months ended September 30, 2025, the Company's effective tax rates were -0.9% and -0.2% respectively. The

Company's nominal effective tax rate for the periods above was due to the presence of net operating loss carryovers and adjustments to the valuation allowance on deferred tax assets.

The Company assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit the use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative loss incurred over an extended amount of time. Such objective evidence limits the ability to consider other subjective evidence, such as projections for taxable earnings.

The Company has recorded valuation allowances against the associated deferred tax assets for the amounts it deems are not more likely than not realizable. Based on management's belief that not all the net operating losses are realizable, a federal valuation allowance and additional state valuation allowances were maintained during the three and nine months ended September 30, 2026, and 2025. In addition, due to the Company's recent operating losses and valuation allowances, the Company may recognize reduced or no tax benefits on future losses on the condensed consolidated financial statements. The amount of the valuation allowances considered realizable, however, could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased, or if objective negative evidence in the form of cumulative losses is no longer present and additional weight is given to subjective evidence such as projections for future growth.

11. SUPPLEMENTAL CONSOLIDATED FINANCIAL STATEMENT INFORMATION

Deferred Revenue

Following is a summary of balances of and changes in deferred revenue (in thousands):

	2026	2025
Beginning Balance	$ 7,477	$ 1,570
Revenue recognized in the current year that was included in the beginning balance	(7,352)	(1,568)
Current period unearned revenue related to uncompleted contracts at quarter end	3,839	3,707
Ending Balance	$ 3,964	$ 3,709

Deferred Costs and Unbilled Receivables

Contract assets, which include unbilled receivables and deferred costs, are included in prepaid expenses and other current assets on the condensed consolidated balance sheets. Following is a summary of balances of and changes in contract assets, which include unbilled receivables and deferred costs (in thousands):

	2026	2025
Beginning Balance	$ 3,836	$ 391
Billings and costs recognized in the current year that were included in the beginning balance	(3,738)	(391)
Unbilled receivables and deferred costs incurred related to uncompleted contracts at quarter end	3,133	2,395
Ending Balance	$ 3,231	$ 2,395

Accounts Receivable

Following is a summary of balances of customer accounts receivable (in thousands), excluding other receivables:

	Nine Months Ended September 30, 2026	Year Ended December 31, 2025
Beginning Balance	$ 9,360	$ 9,921
Ending Balance	$ 4,535	$ 9,360

Related Party Transactions

For the three and nine months ended September 30, 2026, the Company incurred related-party expenses totaling approximately $19,500 and $129,000, respectively. These expenses represent charges by various companies under common control with Wilks Brothers,

LLC, the holder of approximately 80% of the Company's outstanding common stock. Of the approximately $129,000 incurred during the nine months ended September 30, 2026, $8,500 related to customer entertainment expenses, with the remainder consisting of interest charges related to the Company's Equify revolving credit note, as further discussed in Note 6. As of September 30, 2026, the Company had no outstanding related-party accounts payable.

For the three and nine months ended September 30, 2025, the Company incurred related-party expenses totaling approximately $33,000 and $128,000. All transactions consisted of trucking charges.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical fact contained in this Quarterly Report on Form 10-Q are forward-looking statements, including without limitation statements regarding our forecasts, estimates or other expectations regarding future events, operations or financial results, including expectations regarding revenue, gross margins and Adjusted EBITDA; expectations regarding the sufficiency of the Company's liquidity and capital resources; statements regarding demand and backlog; expectations regarding the Company's inventory of channels and vibrator energy source units, crew size, usage, and deployment timing; statements regarding potential technological advancements and their potential impact on demand for the Company's services; statements regarding the Company's various markets, including the oil and gas, CCUS and geothermal markets; our financial position, business strategy, and the plans and objectives of our management for future operations; our expectations regarding liquidity; the anticipated benefits of our purchased single-node channels; and our ability to identify areas of improvement in the deployment of the new single-node channels and the expected operational efficiencies resulting therefrom; statements regarding the Company's investment in compute power and the anticipated benefits to be derived therefrom for the Company and its customers; statements regarding our financial performance and our ability to capitalize on current market opportunities; and statements regarding any potential transaction(s) with our controlling stockholder and/or any of its affiliates. In some cases, you can identify forward-looking statements by terms such as "aim," "may," "will," "should," "expects," "plans," "anticipates," "continues," "could," "intends," "goals," "target," "projects," "contemplates," "believes," "estimates," "predicts" or "potential" or the negative of these terms or other similar expressions. These forward-looking statements speak only as of the date of filing of this Form 10-Q and, except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of any new information, future events or otherwise. Such forward-looking statements are based on the beliefs of our management, as well as assumptions made by and information currently available to management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors. These factors include, but are not limited to, risks relating to the Company's ability to execute its business strategies and plans for growth; the efficacy of the purchased single-node channels; the failure to operationalize the acquired equipment in a timely manner or at all; risks associated with the Company's ability to finance the transactions contemplated by the purchase agreement to acquire the single-node channels (the "Equipment Purchase Agreement"); risks relating to the Company's investment in compute power, including risks that the Company may not achieve the anticipated benefits of such investment; risks relating to any potential transaction(s) with our controlling stockholder and/or any of its affiliates, the impact on our stock price of any such potential transaction(s), our ability to consummate any such transaction, costs associated with such potential transaction(s), and our ability to achieve the anticipated benefits of any such potential transaction(s); our status as a controlled public company, which exempts us from certain corporate governance requirements; the limited market for our common stock; the impact of general economic, industry, market or political conditions, including tariffs; dependence upon energy industry spending; changes in exploration and production spending by our customers and changes in the level of oil and natural gas exploration and development; the results of operations and financial condition of our customers, particularly during extended periods of low prices for crude oil and natural gas; the volatility of oil and natural gas prices and markets; changes in economic conditions; surplus in the supply of oil and the ability of the Organization of the Petroleum Exporting Countries and its allies, collectively known as OPEC+, to agree on and comply with supply limitations; the potential for contract delays; reductions or cancellations of service contracts; limited number of customers; credit risk related to our customers; reduced utilization; high fixed costs of operations and high capital requirements; industry competition; external factors affecting the Company's crews such as weather interruptions and inability to obtain land access rights of way; whether the Company enters into turnkey or day rate contracts; crew productivity; risks that the Company's cash reserves, liquidity or capital resources may be insufficient; risks associated with the identification of suitable acquisition candidates and the successful, efficient execution of acquisition transactions, the integration of any such acquisition candidates, the value of those acquisitions to our customers and shareholders, and the financing of such acquisitions; risks related to our indebtedness and compliance with covenants contained in our revolving credit note; the risk that expected improvements in deployment of the new single-node channels may not result in anticipated operational efficiencies or improved operating and financial performance; disruptions in the global economy, including the Russian-Ukrainian conflict, the U.S. and Iran conflict, and the unrest in the Middle East; export controls and financial and economic sanctions imposed on certain industry sectors and parties as a result of the developments and broader consequences of the Russian-Ukrainian conflict, the U.S. and Iran conflict, and the unrest in the Middle East-related activities; and whether or not a future transaction or other action occurs that causes the Company to be delisted from Nasdaq and no longer be required to make filings with the Securities and Exchange Commission (the "SEC"). The cautionary statements made in this Form 10-Q should be read as applying to all

related forward-looking statements wherever they appear in this Form 10-Q. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this paragraph. The Company disclaims any intention or obligation to revise any forward-looking statements, whether as a result of new information, future events or otherwise. A further list and description of risks, uncertainties and assumptions that could cause or contribute to differences in the Company's future results include the cautionary statements described in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2025, and in our subsequent periodic filings with the SEC. The Company qualifies all of its forward-looking statements by these cautionary statements.

Overview

We are a leading provider of North American onshore seismic data acquisition services with operations throughout the continental U.S. and Canada. Substantially all of our revenues are derived from the seismic data acquisition services we provide to our clients. Our clients consist of major oil and gas companies, independent oil and gas operators, and providers of multi-client data libraries. In recent years, our primary customer base has consisted of providers of multi-client data libraries. Demand for our services depends upon the level of spending by these companies for exploration, production, development and field management activities, which depends, in a large part, on oil and natural gas prices. Significant fluctuations in domestic oil and natural gas exploration and development activities related to commodity prices, as we have recently experienced, have affected, and will continue to affect, demand for our services and our results of operations, and such fluctuations continue to be the single most important factor affecting our business and results of operations.

During the third quarter of 2026, two large-channel-count projects were delayed until the fourth quarter due to government permitting issues. The Company operated two smaller-channel-count crews in the United States during the quarter. The Company is scheduled to deploy three large-channel-count crews and three smaller-channel-count crews in the United States during November 2026.

The Company's seasonal Canadian operations ceased in April 2026 and resumed in October 2026. The Company continues to experience bidding activity for larger channel-count projects in the Canadian market. The Company is also pursuing opportunities in non-traditional seismic exploration, including geothermal exploration, carbon capture, utilization, and storage ("CCUS") seismic monitoring, and rare-mineral exploration. The Company expects to commence its first geothermal seismic acquisition project in November 2026.

While our revenues are mainly affected by the level of client demand for our services, our revenues are also affected by the pricing for our services that we negotiate with our clients and the productivity and utilization level of our data acquisition crews. Factors impacting productivity and utilization levels include, without limitation: client demand, commodity prices, whether we enter into turnkey or day-rate contracts with our clients, the number and size of crews, the number of recording channels per crew, crew downtime related to inclement weather, delays in acquiring land access permits, agricultural or hunting activity, holiday schedules, short winter days, crew repositioning and equipment failure. Additionally, revenues for our Canadian operations are seasonally limited to the winter season due to rules regarding surface conditions. To the extent we experience these factors, our operating results may be affected and vary from quarter to quarter. Consequently, our efforts to negotiate more favorable contract terms in our supplemental service agreements, mitigate permit access delays and improve overall crew productivity may contribute to growth in our revenues.

Discussions with Controlling Stockholder

As of September 30, 2026, Wilks Brothers, LLC ("Wilks") and its affiliates control approximately 80% of our common stock. We have been in discussions with Wilks and certain of its affiliates from time to time with respect to one or more transactions involving assets owned by Wilks and/or certain of its affiliates, which may include, among other things, asset contributions or sales, a business combination transaction or other similar transactions. In connection with these discussions, we incurred $3.2 million in expenses in the nine months ended September 30, 2026, which is included in general and administrative expense in our consolidated statement of operations.

There is no guarantee that we will enter into a definitive agreement with any such parties regarding any such transaction. The terms of any potential agreement between us and Wilks, and/or any of its affiliates, would be contingent on certain conditions, including completion of due diligence and the negotiation of definitive transaction documents. Our Board of Directors has formed a special committee of independent directors to evaluate, negotiate and make recommendations to the Board regarding any such transaction with Wilks and/or its affiliates, including whether to pursue or decline to pursue any proposed transaction.

Results of Operations

U.S. Fee Revenues. Fee revenues for the third quarter of 2026 decreased 27% to $10.8 million compared to $14.8 million for the same period of 2025. The decrease was primarily attributable to reduced crew activity during the quarter, including delays in two large-channel-count projects due to government permitting issues. Fee revenues for the first nine months of 2026 increased 73% to $44.9 million compared to $25.9 million for the same period in 2025. The increase was primarily attributable to higher crew production and utilization during the first nine months of 2026.

Canadian Fee Revenues. Fee revenues for the third quarter of 2026 decreased 96% to approximately $6,000 compared to $166,000 for the same period in 2025. The decrease was primarily attributable to the seasonal suspension of Canadian operations during the third quarter of 2026. Fee revenues for the first nine months of 2026 decreased 4% to $12.5 million compared to $13.0 million for the same period in 2025. The decrease was primarily attributable to lower overall crew production and utilization. Canadian operations resumed in October 2026.

Total Revenues. Revenues for the third quarter of 2026 decreased 50% to $11.4 million compared to $22.7 million for the same period in 2025. Total revenues included reimbursable revenues of $0.6 million and $7.8 million for the third quarters of 2026 and 2025, respectively. Revenues for the first nine months of 2026 increased 36% to $66.0 million compared to $48.7 million for the same period in 2025. Total revenues included reimbursable revenues of $8.7 million and $9.7 million for the nine months ended September 30, 2026 and 2025, respectively. The year-to-date increase in total revenues was primarily attributable to increased U.S. fee revenues.

U.S. Fee Operating Expenses. Fee operating expenses for the third quarter of 2026 decreased 15% to $9.9 million compared to $11.7 million for the same period of 2025. The decrease was primarily attributable to lower crew activity during the third quarter of 2026. Fee operating expenses for the first nine months of 2026 increased 46% to $33.6 million compared to $23.1 million for the same period in 2025. The increase was primarily attributable to increased crew production and utilization during the first nine months of 2026.

Canadian Fee Operating Expenses. Fee operating expenses for the third quarter of 2026 decreased 28% to $0.7 million compared to $0.9 million for the same period of 2025. The decrease was primarily attributable to lower operating activity during the quarter. Fee operating expenses for the first nine months of 2026 decreased 4% to $7.8 million compared to $8.1 million for the same period in 2025. The decrease was primarily attributable to reduced crew activity and utilization.

Reimbursable Revenues and Costs. These revenues and expenses are passed through to our clients and are job specific and vary significantly from year to year. The costs are agreed to by our clients prior to contracting with outside vendors for the various tasks.

General and Administrative Expenses. General and administrative expenses increased 48% during the third quarter of 2026 to $3.1 million compared to $2.1 million for the same period in 2025. The increase was primarily attributable to strategic transaction expenses of approximately $0.8 million incurred during the quarter related to a potential transaction or transactions with the Company's largest shareholder, Wilks Brothers, LLC, and/or certain of its affiliates, as described above under “Discussions with Controlling Stockholder.” During the first nine months of 2026, general and administrative expenses increased 51% to $9.7 million compared to $6.4 million for the same period in 2025. The increase was primarily attributable to $3.2 million of strategic transaction expenses incurred during the nine months ended September 30, 2026.

Depreciation and Amortization Expense. Depreciation and amortization expenses for the third quarter and first nine months of 2026 totaled $2.0 million and $5.9 million, respectively, compared to $1.3 million and $3.8 million for the same periods in 2025. The increases in depreciation and amortization expenses were primarily attributable to purchases of new seismic recording equipment beginning in August 2025 and continuing through January 2026.

Total Operating Costs. Total operating costs for the third quarter of 2026 were $16.3 million, representing a 32% decrease compared to $23.9 million for the same period in 2025. The decrease was primarily attributable to lower fee operating expenses and reimbursable operating expenses, partially offset by increases in general and administrative expenses and depreciation and amortization. Total operating costs for the first nine months of 2026 were $65.8 million, representing a 28% increase compared to $51.2 million for the same period in 2025. The increase was primarily attributable to higher fee operating expenses, general and administrative expenses, and depreciation and amortization, partially offset by lower reimbursable operating expenses.

Interest expense. Interest expense for the third quarter and first nine months of 2026 totaled $0.4 million and $1.3 million, respectively, compared to $71,000 and $205,000 for the same periods in 2025. The increase in interest expense was primarily attributable to interest expense associated with the Geospace Notes and the Equify Revolving Credit Note.

Income Taxes. The Company recorded an income tax benefit of $1,000 for the third quarter of 2026, compared to income tax expense of $10,000 for the same period in 2025. For the nine months ended September 30, 2026 and 2025, the Company recorded income tax expense of $24,000 and $6,000, respectively. These amounts represent effective tax rates of approximately 0.0% and -0.9% for the third quarters of 2026 and 2025, respectively, and -2.6% and -0.2% for the nine months ended September 30, 2026 and 2025, respectively. The Company's effective tax rates for these periods were primarily attributable to net operating loss carryforwards and adjustments to the valuation allowance on deferred tax assets.

Our effective tax rates differ from the statutory federal rate of 21% for certain items such as state and local taxes, valuation allowances, and non-deductible expenses. For further information, see Note 10 of the Notes to the Condensed Consolidated Financial Statements.

Use of Adjusted EBITDA (a Non-GAAP measure)

We define Adjusted EBITDA as net income (loss) plus interest expense (income), net; income tax expense (benefit); depreciation and amortization; non-recurring and other charges that we believe are not indicative of our core operating performance, such as strategic transaction costs. Our management uses Adjusted EBITDA as a supplemental financial measure to assess:

- the financial performance of our assets without regard to financing methods, capital structures, taxes or historical cost basis;
- its liquidity and operating performance over time in relation to other companies that own similar assets and that we believe calculate Adjusted EBITDA in a similar manner; and
- the ability of our assets to generate cash sufficient for us to pay potential interest costs.

We also understand that such data are used by investors to assess our performance. However, the term Adjusted EBITDA is not defined under generally accepted accounting principles ("GAAP"), and Adjusted EBITDA is not a measure of operating income or operating performance presented in accordance with GAAP. When assessing our operating performance, investors and others should not consider this data in isolation or as a substitute for net income (loss), the most directly comparable GAAP financial measure, cash flow from operating activities or other cash flow data calculated in accordance with GAAP. In addition, we may modify how we calculate Adjusted EBITDA, and our use of Adjusted EBITDA may not be comparable to Adjusted EBITDA or similarly titled measures utilized by other companies because other companies may not calculate Adjusted EBITDA in the same manner as us. Further, the results presented by Adjusted EBITDA cannot be achieved without incurring the costs that the measure excludes, such as interest, taxes, depreciation and amortization.

The reconciliation of our Adjusted EBITDA to our net (loss) income, which is the most directly comparable GAAP operating performance measure, is provided in the following tables (in thousands):

	Three Months Ended September 30,					
	2026 US	2026 CA	2026 Consol.	2025 US	2025 CA	2025 Consol.
Net (loss) income	$ (4,066)	$ (1,101)	$ (5,167)	$ 60	$ (1,213)	$ (1,153)
Depreciation and amortization	1,754	211	1,965	1,160	189	1,349
Interest expense, net	343	32	375	11	1	12
Income tax (benefit) expense	(1)	—	(1)	10	—	10
EBITDA	(1,970)	(858)	(2,828)	1,241	(1,023)	218
Strategic transaction expenses	834	—	834	—	—	—
Adjusted EBITDA	$ (1,136)	$ (858)	$ (1,994)	$ 1,241	$ (1,023)	$ 218

	Nine Months Ended September 30,					
	2026 US	2026 CA	2026 Consol.	2025 US	2025 CA	2025 Consol.
Net (loss) income	$ (3,824)	$ 2,878	$ (946)	$ (5,783)	$ 3,273	$ (2,510)
Depreciation and amortization	5,275	672	5,947	3,218	576	3,794
Interest expense, net	1,202	59	1,261	94	13	107
Income tax expense	24	—	24	6	—	6
EBITDA	2,677	3,609	6,286	(2,465)	3,862	1,397
Strategic transaction expenses	3,218	—	3,218	—	—	—
Adjusted EBITDA	$ 5,895	$ 3,609	$ 9,504	$ (2,465)	$ 3,862	$ 1,397

Liquidity and Capital Resources

Our principal sources of cash are amounts earned from the seismic data acquisition services we provide to our clients and our Revolving Credit Note (defined below). Our principal uses of cash are the amounts used to provide these services, including expenses related to our operations and acquiring new equipment. Accordingly, our cash position depends (as do our revenues) on the level of demand for our services. As of September 30, 2026, we had $2.8 million in cash and a working capital deficit of $6.2 million. As of October 31, 2026, our cash position was $6.0 million, and our Revolving Credit Note was fully drawn with an outstanding balance of $3.5 million. Management believes cash flow from operations and cash on hand are sufficient to fund operating and investing cash flow requirements, as well as our obligations under the Geospace Notes (defined below), our other indebtedness, and any continued strategic transaction expenses, for at least the next twelve months from the date of the filing of this report. Further, management expects our operating cash flows to improve with the resumption of our seasonal Canadian operations and contracted jobs in the United States in the fourth quarter.

Cash Flows. Net cash provided by operating activities was $1.3 million for the nine months ended September 30, 2026, compared to $11.9 million for the same period of 2025. The decrease was primarily attributable to changes in working capital and strategic transaction costs.

Net cash used in investing activities was $1.4 million for the nine months ended September 30, 2026, compared to $5.7 million for the same period of 2025. The decrease in cash used in investing activities was primarily due to lower cash capital expenditures, which totaled approximately $1.8 million for the first nine months of 2026 compared to $6.1 million for the same period of 2025.

Net cash used in financing activities was $2.0 million for the nine months ended September 30, 2026, compared to $2.5 million for the same period of 2025. Financing activities during the first nine months of 2026 included approximately $9.9 million in borrowings and $6.3 million in repayments under the Revolving Credit Note, as well as $4.6 million in principal payments on notes payable and $1.0 million in principal payments on finance leases. Financing activities for the same period of 2025 consisted primarily of $1.8 million in principal payments on notes payable and $0.6 million in principal payments on finance leases.

Capital Expenditures. For the nine months ended September 30, 2026, we spent approximately $1.8 million in cash on capital expenditures, primarily for new single-node channels, rolling stock, and maintenance capital requirements. Historically, we have funded most of our capital expenditures through cash flow from operations, cash reserves, equipment term loans, and finance leases. Under the Equipment Purchase Agreement, we financed a portion of our purchase of new single-node channels through the issuance of Geospace Notes. As of September 30, 2026, all contracted equipment had been delivered, and the final Geospace Note had been issued.

Capital Resources. Historically, we have primarily relied on cash flows from operations, cash reserves, and borrowings from commercial banks to fund our capital requirements. In connection with the Equipment Purchase Agreement, we issued the Geospace Notes. We also have a Revolving Credit Note with Equify Financial, a related party, which was fully drawn as of September 30, 2026.

Revolving Credit Note

On October 31, 2025, Dawson Geophysical Company and Dawson Operating, as borrowers (the "Borrowers"), entered into a Revolving Credit Note (the "Revolving Credit Note") in favor of Equify Financial, as lender (the "Lender"), a related party affiliated through common control.

Pursuant to the Revolving Credit Note, the Borrowers, jointly and severally, may, from time to time until November 20, 2028, request loans from the Lender for up to an aggregate principal amount of $5,035,032. The loans outstanding under the Revolving Credit Note are payable by the Borrowers in thirty-six (36) monthly installments of principal in the amount of $139,862, together with all accrued and unpaid interest on the outstanding principal balance thereunder, commencing on December 20, 2025, and continuing thereafter until the maturity date. The interest rate applicable to loans outstanding under the Revolving Credit Note is a rate per annum equal to 13%.

The maximum borrowing limit under the Revolving Credit Note is initially $5,035,032, and such amount is reduced by $139,862 on each monthly payment date. During the nine months ended September 30, 2026, the Company borrowed approximately $9.9 million and repaid approximately $6.3 million under the Revolving Credit Note. As of September 30, 2026, approximately $3.6 million was outstanding, and the credit facility was fully drawn. The Borrowers may prepay up to 75% of the outstanding principal and accrued but unpaid interest at any time without a prepayment fee.

The obligations under the Revolving Credit Note are secured by a lien on our vibrator energy source vehicles, pursuant to a Security Agreement by and between us and the Lender, dated as of October 31, 2025.

All outstanding amounts owed under the Revolving Credit Note become due and payable no later than the maturity date of November 20, 2028, and are subject to acceleration upon the occurrence of events of default which we consider usual and customary for an agreement of this type, including failure to make payments under the Revolving Credit Note, non-performance of covenants and obligations or insolvency or bankruptcy (as defined in the Revolving Credit Note).

Other Indebtedness

The Company paid cash of approximately $4.8 million upon execution of the Equipment Purchase Agreement, paid approximately $0.9 million in cash upon final delivery, and agreed to finance approximately $18.2 million through separate promissory notes to be issued in connection with each delivery of equipment (each, a "Geospace Note" and collectively, the "Geospace Notes"). Each Geospace Note is payable by Dawson Geophysical Company and Dawson Operating, jointly and severally, to GTC. The Geospace Notes each have a term of 36 months, bear a fixed interest rate of 8.75% annually and may be prepaid in whole or in part at any time without penalty. As of September 30, 2026, the Company has taken delivery of all contracted equipment and issued six Geospace Notes with an aggregate principal of approximately $18.2 million, with $13.2 million outstanding at September 30, 2026.

As of September 30, 2026, the Company had no outstanding notes payable to finance companies for insurance premiums. As of December 31, 2025, the Company had one outstanding short-term note payable to a finance company for insurance premiums totaling $258,000.

In addition, we lease certain seismic recording equipment and vehicles under leases classified as finance leases. Our Condensed Consolidated Balance Sheets as of September 30, 2026, and December 31, 2025, include finance leases of $2.3 million and $2.6 million, respectively.

Maturities and Interest Rates of Debt

The following tables set forth the aggregate principal amount (in thousands) under our outstanding notes payable and the interest rates as of September 30, 2026, and December 31, 2025:

	September 30, 2026	December 31, 2025
Geospace Notes payable		
Aggregate principal amount outstanding	$ 13,244	$ 14,731
Interest rate of 8.75%		

	September 30, 2026	December 31, 2025
Notes payable to finance company for insurance		
Aggregate principal amount outstanding	$ —	$ 258
Interest rates range from 6.60% to 7.49%		

The aggregate maturities of notes payable and revolving credit note as of September 30, 2026, are as follows (in thousands):

October 2026 - September 2027	$ 7,656
October 2027 - September 2028	8,086
October 2028 - September 2029	1,103
Obligations under notes payable and revolving credit note	$ 16,845

The aggregate maturities of finance leases (net of imputed interest) as of September 30, 2026, are as follows (in thousands):

October 2026 - September 2027	$ 1,263
October 2027 - September 2028	707
October 2028 - September 2029	318
October 2029 - September 2030	57
Obligations under finance leases	$ 2,345

Interest rates on these leases range from 4.86% to 13.33%.

Contractual Obligations

We believe that our capital resources, including our cash on hand, short-term investments and cash flow from operations will be adequate to meet our current operational needs, including any continued strategic transaction expenses. We believe that we will be able to finance our 2026 capital expenditures through cash flow from operations or from other commercial lenders and the Geospace Notes. However, our ability to satisfy working capital requirements, meet debt repayment obligations, and fund future capital requirements will depend principally upon our future operating performance, which is subject to the risks inherent in our business, and will also depend on the

extent to which the current economic climate adversely affects the ability of our customers, and/or potential customers, to promptly pay amounts owing to us under their service contracts with us.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates since December 31, 2025. Information regarding our critical accounting policies and estimates is included in Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2025.

Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement–Reporting Comprehensive Income–Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses.* ASU 2024-03 enhances the disclosures required for certain expense captions in the Company's annual and interim consolidated financial statements. This ASU is effective prospectively or retrospectively for fiscal years beginning after December 15, 2026, and for interim reporting periods beginning after December 15, 2027. Early adoption is permitted. We are currently evaluating the impact of this standard on our disclosures.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*. This ASU introduces a practical expedient to simplify the application of Topic 326, Financial Instruments - Credit Losses, to current accounts receivable and current contract assets arising from revenue transactions accounted for under Topic 606, Revenue from Contracts with Customers. This ASU was implemented January 1, 2026, and did not have a material impact on our disclosures.

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270): Narrow-Scope Improvements*. This ASU intends to improve the guidance for interim reporting and clarify when that guidance is applicable. ASU 2025-11 provides a comprehensive list of required disclosures and also requires entities to disclose events since the last annual reporting period that have a material impact on the entity. ASU 2025-11 is effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted. The Company is currently evaluating the impact of ASU 2025-11 on its financial statements and related disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in our market risk profile during the nine months ended September 30, 2026. For additional information about our market risk profile, refer to "Quantitative and Qualitative Disclosures About Market Risk" in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2025.

We are exposed to certain market risks arising from the use of financial instruments in the ordinary course of business. These risks arise primarily as a result of potential changes to operating concentration of credit risk and changes in interest rates. We have not entered into any hedge arrangements, commodity swap agreements, commodity futures, options or other derivative financial instruments. We also conduct business in Canada, which subjects our results of operations and cash flows to foreign currency exchange rate risk.

ITEM 4. CONTROLS AND PROCEDURES

Management’s Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive and financial officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this report. Based upon that evaluation, our President and Chief Executive Officer and our Chief Financial Officer concluded that, as of September 30, 2026, our disclosure controls and procedures were effective, in all material respects, with regard to the recording, processing, summarizing and reporting, within the time periods specified in the SEC’s rules and forms, for information required to be disclosed by us in the reports that we file or submit under the Exchange Act. Our disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our President and Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the three months ended September 30, 2026, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Refer to Note 8 – Commitments and Contingencies in the Notes to the Condensed Consolidated Financial Statements (Part I, Item 1 of this Form 10-Q) for a discussion of the Company's legal proceedings.

ITEM 1A. RISK FACTORS

As of the date of this report, there have been no material changes in the risk factors previously disclosed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2025.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

(a) 2026 Annual Meeting of Shareholders

The Company currently expects to hold its 2026 annual meeting of shareholders (the "2026 Annual Meeting") on December 15, 2026. Because the date of the 2026 Annual Meeting is more than 30 days after the anniversary of the Company's 2025 annual meeting of shareholders, which was held on June 17, 2025, the deadlines for shareholder proposals and director nominations disclosed in the Company's proxy statement for the 2025 annual meeting no longer apply. The revised deadlines for the 2026 Annual Meeting are set out below.

Proposals for inclusion in the proxy materials (Rule 14a-8). A shareholder who wishes to submit a proposal for inclusion in the Company's proxy materials for the 2026 Annual Meeting under Rule 14a-8 under the Exchange Act must deliver the proposal to the Company's Corporate Secretary at 508 West Wall, Suite 800, Midland, Texas 79701, no later than 5:00 p.m. Central Time on November 26, 2026. The Company believes that date is a reasonable time before it begins to print and send its proxy materials. Proposals must also comply with all other requirements of Rule 14a-8.

Nominations and other business under the Bylaws. Because the date of the 2026 Annual Meeting has been delayed by more than 30 days, under Section 2:2(B) of the Company's Second Amended and Restated Bylaws (the "Bylaws"), a shareholder who intends to nominate a person for election as a director or to bring other business before the 2026 Annual Meeting, other than under Rule 14a-8, must deliver written notice to the Company's Corporate Secretary. The notice must be received at the Company's principal executive offices at the address above no later than 5:00 p.m. Central Time on November 26, 2026, which is the tenth day following the day on which public announcement of the date of the 2026 Annual Meeting is first made. The notice must contain the information required by the Bylaws. A nomination or proposal that does not comply with these requirements will not be considered at the 2026 Annual Meeting.

Universal proxy rules (Rule 14a-19). In addition to satisfying the Bylaws, a shareholder who intends to solicit proxies in support of director nominees other than the Company's nominees must provide the notice required by Rule 14a-19 under the Exchange Act to the Company's Corporate Secretary at the address above no later than 5:00 p.m. Central Time on November 26, 2026.

(b) None.

(c) During the three months ended September 30, 2026, none of the Company's directors or officers adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement (each as defined in Item 408 of Regulation S-K).

ITEM 6. EXHIBITS

Number	Exhibit
3.1	Amended and Restated Certificate of Formation, dated February 9, 2015, filed as Exhibit 3.1 to the Company's Annual Report on Form 10-K, filed on March 16, 2015, and incorporated herein by reference.
3.2	Certificate of Amendment to Amended and Restated Certificate of Formation, dated February 11, 2015, filed as Exhibit 3.1 to the Company's Annual Report on Form 10-K, filed on March 16, 2015, and incorporated herein by reference.
3.3	Certificate of Amendment to Amended and Restated Certificate of Formation, dated December 1, 2023, filed as Exhibit 3.1 to the Company's Current Report on Form 8-K, filed on December 1, 2023, and incorporated herein by reference.
3.4	Second Amended and Restated Bylaws, dated December 1, 2023, filed as Exhibit 3.2 to the Company's Current Report on Form 8-K, filed on December 1, 2023, and incorporated herein by reference.
31.1*	Certification of Chief Executive Officer of Dawson Geophysical Company pursuant to Rule 13a-14(a) promulgated under the Securities Exchange Act of 1934, as amended.

CERTIFICATION

I, William A. Clark, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Dawson Geophysical Company;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
