TGC INDUSTRIES, INC. NOTES TO FINANCIAL STATEMENTS (UNAUDITED) March 31, 2005

#### NOTE A — BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-QSB and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and changes in financial position in conformity with accounting principles generally accepted in the United States of America.

#### NOTE B — MANAGEMENT PRESENTATION

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position, results of operations, and changes in financial position have been included. The results of the interim periods are not necessarily indicative of results to be expected for the entire year. For further information, refer to the financial statements and the footnotes thereto included in the Company's Annual Report for the year ended December 31, 2004 filed on Form 10-KSB.

#### NOTE C — EARNINGS PER SHARE

Basic earnings per common share are based upon the weighted average number of shares of common stock outstanding. Diluted earnings per share are based upon the weighted average number of common shares outstanding and, when dilutive, common shares issuable for stock options, warrants and convertible securities. The effect of preferred stock dividends on the amount of income available to common stockholders was \$.01 and \$.01 for the three months ended March 31, 2005 and 2004, respectively.

Outstanding warrants that were not included in the diluted calculation because their effect would be anti-dilutive totaled 8,000 for the three-month period ended March 31, 2004. Outstanding options that were not included in the diluted calculation because their effect would be anti-dilutive totaled 143,000 for the three-month period ended March 31, 2004.

The following is a reconciliation of net income and weighted average common shares outstanding for purposes of calculating basic and diluted net income per share:

	7		

#### NOTE D - DIVIDENDS

Holders of the Company's Series C 8% Convertible Exchangeable Preferred Stock ("Series C Preferred Stock") will receive, when, as and if declared by the Board of Directors of the Company, dividends at a rate of 8% per annum. The dividends are payable semi-annually during January and July of each year. At a March 2005 meeting, the Company's Board of Directors declared a dividend on the Series C Preferred Stock in the amount of \$12,600.00 (\$2.40 per share) payable April 7, 2005 to shareholders of record on March 24, 2005. This amount is equal to the cumulative dividend arrearage on the Series C Preferred Stock. As a result, at March 31, 2005, there were no dividends in arrears on the Company's Series C Preferred Stock.

Holders of the Company's 8-1/2% Senior Convertible Preferred Stock (the "Senior Preferred Stock") will receive, when, as and if declared by the Board of Directors of the Company, dividends at a rate of 8-1/2% per annum. The dividends are payable semi-annually during June and December of each year. Dividends paid during 2000, on the Senior Preferred Stock, were paid in additional shares of Senior Preferred Stock, in accordance with the terms of the Statement of Resolution Establishing the Senior Preferred Stock. In addition, the holders elected to receive payment of the 2001, 2002 and 2003 dividends in additional shares of Senior Preferred Stock. At March 31, 2005, there were no dividends in arrears on the Company's Senior Preferred Stock.

#### NOTE E - INCOME TAXES

At December 31, 2004, the Company had net operating loss carryforwards of approximately \$4,980,000 available to offset future taxable income, which expire at various dates through 2024. However, the Company anticipates its net operating loss carryforwards will be depleted during 2005. As a result, the Company began accruing for federal and various state income taxes during the first quarter of 2005. In addition, the Company paid estimated federal alternative minimum tax and various state income taxes for tax year 2004 in the first quarter of 2005. These taxes are reflected as current tax expense on the statements of income. Presently deferred tax assets are fully reserved.

8

#### ITEM 2.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

#### RESULTS OF OPERATIONS

The Company experienced a 94% increase in revenues in the first quarter of 2005 over the same period of 2004. This increase in revenue was primarily the result of the Company operating three field crews in the first quarter of 2005 versus two field crews for the same period of 2004, as well as increased productivity derived from the new ARAM ARIES recording system, which was put into service in the fourth quarter of 2004. The Company reported net income, before dividend requirements on preferred stock, of \$1,073,169 on revenue of \$5,753,743, for the three month period ended March 31, 2005 compared with net income, before dividend requirements on preferred stock, of \$789,515 on revenue of \$2,970,872 for the same period of 2004. Income per common share, on a basic and diluted basis, was \$.16 and \$.09, respectively, for the three month period ended March 31, 2005, compared with income per common share, on a basic and diluted basis, of \$.13 and \$.07, respectively, for the same period of 2004. The Company recorded income tax expense of \$356,804 (\$.03 per diluted share) in the first quarter of 2005. However, as a result of having had a net operating loss carryforward, no income tax expense was recorded in the first quarter of 2004. At December 31, 2004, TGC had net operating loss carryforwards of approximately \$4,980,000 available to offset future taxable income, which expire at various dates through 2024. The Company anticipates the net operating loss carryforwards will be depleted during 2005 and the Company will incur federal income taxes as well as income taxes from various states. See Note E of Notes to Financial Statements in Item 1.

Oil and gas exploration companies have recently increased the level of activity in their domestic oil and gas exploration programs. Though there can be no assurance, should this increased level of activity in the industry continue, management believes TGC will be able to keep all three of its field crews working the balance of 2005.

Non-cash charges for depreciation and amortization were \$504,932 in the first three months of 2005 compared with \$194,360 for the same period of 2004.

#### FINANCIAL CONDITION

Cash of \$2,442,603 was provided by operations during the first three months of 2005 compared with cash provided by operations of \$1,670,040 for the same period of 2004. This increase was primarily the result of the increase in revenues and net income in the first three months of 2005 compared with the same period of 2004. Capital expenditures for additional vehicles and seismic equipment of \$284,160 offset by proceeds from the sale of equipment of \$46,747 resulted in net cash of \$237,413 being used in investing activities during the first three months of 2005. Principal payments of notes payable of \$208,036 along with principal payments of capital lease obligations of \$75,927 resulted in net cash of \$283,963 being used in financing activities during the first three months of 2005.

In September 2002, TGC issued 1,500,000 stock warrants to certain directors in exchange for a line of credit, that expired December 31, 2002, in an amount up to \$300,000. The warrants cover 1,500,000 shares of Common Stock, expire on September 10, 2012, and are exercisable at \$.20 per whole share. During September 2002, TGC borrowed \$150,000 of the available funds. The promissory notes, which bore interest at 6.75% per annum, were paid in full during December 2002 and January 2003.

9

Working capital increased \$1,034,944 to \$1,888,077 at March 31, 2005 from the December 31, 2004, working capital of \$853,133. The Company's current ratio was 1.7 at March 31, 2005, compared with 1.3 at December 31, 2004. Stockholders' equity increased \$1,060,568 to \$5,630,633 at March 31, 2005 from the December 31, 2004 balance of \$4,570,065. This increase was primarily attributable to the net income, before dividend requirements on preferred stock, of \$1,073,169.

Management believes, although there can be no assurance, that available funds together with anticipated cash flows generated from future operations will be sufficient to meet the Company's cash needs during 2005.

In April 2005, the Company's common stock was approved for listing on the American Stock Exchange (AMEX) and began trading on the AMEX on Monday April 18, 2005 under the symbol TGE. Management believes, although there can be no assurance, that the Exchange listing will increase liquidity in the Company's shares as it strives to execute its growth strategy.

#### FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements which reflect the view of Company's management with respect to future events. Although management believes that the expectations reflected in such forward-looking statements are reasonable; it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from such expectations are disclosed in the Company's Securities and Exchange Commission filings, and include, but are not limited to the dependence upon energy industry spending for seismic services, the unpredictable nature of forecasting weather, the potential for contract delay or cancellation, the potential for fluctuations in oil and gas prices, and the availability of capital resources. The forward-looking statements contained herein reflect the current views of the Company's management and the Company assumes no obligation to update the forward-looking statements or to update the reasons actual results could differ from those contemplated by such forward-looking statements.

#### ISSUES AND UNCERTAINTIES

#### Fluctuating Demand and Prices

Demand for the majority of the Company's oilfield services is substantially dependent on the level of expenditures by the oil and gas industry for the exploration, development, and production of crude oil and natural gas reserves. Exploration, development, and production activity is sensitive to demand for oil and gas and to oil and gas prices and is generally dependent on the industry's view of future demand and prices. Oil and gas prices have historically been volatile and are affected by numerous factors, including:

- worldwide demand for energy, which is affected by worldwide population growth and economic conditions;
- the ability of the Organization of Petroleum Exporting Countries to set and maintain production levels for oil;
- the level of worldwide oil exploration and production activity;
- the cost of exploring for, producing, and delivering oil and gas; and
- technological advances affecting energy consumption.

10

#### Fluctuating Revenues.

The Company's operating results can be adversely affected by numerous variables such as the timing of the receipt and commencement of contracts for data acquisition, permit delays, weather delays, and crew productivity. The negative effect of one or more of these factors can trigger wide variations in the Company's operating revenues from quarter to quarter.

#### Liability Claims.

Many of the Company's oilfield services and products are delivered or used in hostile environments. An accident or a failure can cause personal injury, loss of life, damage to property, equipment, or the environment, and suspensions of operations. The Company's insurance may not adequately protect the Company against liability for some kinds of events, including events involving pollution, or against losses resulting from business interruption. Moreover, in the future the Company may not be able to maintain insurance at levels of risk coverage or policy limits that the Company deems adequate.

#### Limited Management Depth.

Especially in view of the Company's substantially increased operating revenues, the Company has limited management depth with the result that the loss, whether by death, departure, or illness, of one or even two senior executives could have a material adverse effect on the ability of management to continue operations at the same level of efficiency. The Company does have in place key man insurance on the life of the Company's President and CEO so that, in the event of his untimely death, the Company would receive the insurance proceeds under such policy.

Concentration of Credit Risks.

The Company sells its geophysical services primarily to large independent oil and gas companies operating in the United States. The Company performs ongoing credit evaluations of its customers' financial conditions and, generally, requires no collateral from its customers. A default in payment from one of these large customers could have a material adverse effect on the Company's operating revenues for the period involved.

Adverse Effect on Market Price of Company's Common Stock by Substantial Sales.

As of April 29, 2005, the Company had 6,284,173 shares of common stock outstanding. If all of the Company's outstanding options and warrants were exercised, and all of the Company's convertible securities were converted to common stock, there would be a total of 12,700,456 shares of common stock outstanding. The market price of the Company's common stock could be adversely affected by sales in the public market of substantial amounts of these additional shares.

#### ITEM 3. CONTROLS AND PROCEDURES

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Principal Financial and Accounting Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer and Principal Financial and Accounting Officer concluded that the Company's disclosure controls and procedures are effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

The Company continues to take action to assure compliance with the internal controls, disclosure controls, and other requirements of the Sarbanes-Oxley Act of 2002. Our management, including our Chief Executive Officer and Chief Financial Officer, cannot guarantee that our internal controls and disclosure controls will

11

prevent all possible errors or all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefit of controls must be relative to their costs. Because of the inherent limitations in all control systems, no system of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Further, controls can be circumvented by individual acts of some persons, by collusion of two or more persons, or by management override of the controls.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may be inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

#### PART II - - OTHER INFORMATION

#### ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

- a. The following is a list of exhibits to this Form 10-QSB:
  - 31.1 Certification of Chief Executive Officer of TGC Industries, Inc. pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
  - 31.2 Certification of Treasurer (Principal Financial and Accounting Officer) of TGC Industries, Inc. pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
  - 32.1 Certification of Chief Executive Officer of TGC Industries, Inc. pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
  - 32.2 Certification of Treasurer (Principal Financial and Accounting Officer) of TGC Industries, Inc. pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- b. Reports on Form 8-K:

Date: May 11, 2005

One report under Item Nos. 2.02 and 7.01 of Form 8-K was filed during the reporting period, as follows:

Form 8-K was filed on March 2, 2005, to report the Company issued a press release reporting its results for the fiscal year ended December 31, 2004.

#### CERTIFICATION OF CHIEF EXECUTIVE OFFICER

- I, Wayne A. Whitener, Chief Executive Officer of TGC Industries, Inc. certify that:
- 1. I have reviewed this quarterly report on Form 10-QSB of TGC Industries, Inc.;
- 2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this quarterly report based on such evaluation; and
  - c) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

1

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
